**Injunctions Condemned**  
The American Federation of Labor, in its declaration under the present laws the declaration says that the only course through which labor could find relief lies in a demand for the repeal of laws that recognize or abide by the terms of injunctions which seek to prohibit the workers from exercising their right to a lawful and guaranteed right to do."

"Labor fully realizes the consequences of such action," it is stated, "but in the defense of freedom and of our institutions it is compelled to adopt this course. The consequences of such action are the responsibility of Congress."

Organized labor in the declaration set forth at length the principles from which it derives its attitude upon the people of the United States, its sympathy with labor "in the defense of our in-

Employers as warned in the declaration that labor "not only insists upon retaining the present standards of wages and working conditions, but declares its solemn purpose to continue its struggle to further improve these standards."

**Menace to Democracy.** "There is an unscrupulousness and unnatural aptitude for intrigue in this fanatical propaganda," the statement said, "which make it a most subtle menace to every democratic ideal and institution in our country."

Repeal by the states of all court laws and all restrictive and coercive laws was demanded, together with freedom from decisions of courts holding trade unions and individuals there of liable in damages for the unlawful acts of others."

Another recommendation asks for the prohibition of immigration for a period of not less than two years.

A declaration also called upon the workers to "redoubt all efforts to damage the Canadian cause by the false pretenses of the 'open shop' the usurped authority of courts through writs of injunction or otherwise."

## SOCIAL SERVICE COUNCIL HOLDS EXECUTIVE MEETING

## Suits and Frocks

Information Asked on Prosecution of Certain Classes  
Of Crime

The regular monthly meeting of sub-executive for the social service council of Alberta was held in council rooms, 714 Tupper building, on Monday evening. Present: resident Rev. W. D. Brown of Deer was in the chair, and Mr. J. H. Brown, secretary, I.W.O.A. representative and Harry Bell, of the I.W.O.A. representative, were among the out of town members present.

Resolutions have been sent into the city by several rural municipalities. The social service council takes notice of the growth of bawdy houses in some of the smaller towns. It is suggested that the I.W.O.A. should make an effort to find out how far prosecutions for this kind of thing can be carried. It was decided to draw the attention of the professionals to the present situation.

**Moderation League**—Mr. H. H. Brown, secretary, Mr. H. H. Brown brought to the attention of the

Executive the fact that the league has been organized in the city and has been signed by very large number of people under total misapprehension. The league is now being flooded with letters from all parts of the province. It had been represented that the liquor traffic was being "bootlegged" and that the handling of liquor out of the hands of druggists and doctors was being done by the "Medicine Hat, Coleman, Malt, Stettler and many other places." It was also stated that the liquor was being sold to all ages even children and that some commercial travellers had signed in every town they visited.

A petition seeking a change in the liquor law of the province is being circulated in the city and is signed by many of the business men. The amendments asked for are not destructive of the law which prohibits the sale of liquor to minors to change an act put there by legislation.

A petition asking for a statute is required to be signed by

## VERMILION DEFEATED BY FARMERS HEAVY ICE MADE HARD GOING FOR STUDENTS BUT CONTEST WAS VERY FAST, SCORE 2-0

First Game of Home and Home Series in Allan Cup Elimination Series Gives Farmers a Two-Goal Lead—A Return Game to Be Played At Southside Rink on Friday Night When Students Hope to Recover Their Goal Shortage.

VERMILION, Feb. 23.—Fully seven hundred spectators assembled at the Arena here tonight to witness the first game of the Allan Cup series between the Vermilion Farmers and the University of Alberta students. The game was a hard fought one, the Farmers leading by a score of 2 to 0 at the end of the first period. The game was very fast, both teams working for all they were worth from start to finish. However, the Vermilion puck chasers proved the better team on this kind of ice and earned their victory honestly.

Neither outfit's team attempted much combination. It was a case of simply cutting the ice with the stick through the water. Trumble and Morris were the pick of the Vermilion team, both playing excellent games for variety. Everett Adams was the star for the Farmers, scoring the two goals.

Vermin had it one to nothing in the first period, scoring three minutes after the face off. Five minutes after the face off, a goal before Frank Pukle slipped to a goal, before the second period began. The game was a hard fought one, the Farmers leading by a score of 2 to 0 at the end of the first period. The game was very fast, both teams working for all they were worth from start to finish. However, the Vermilion puck chasers proved the better team on this kind of ice and earned their victory honestly.

## MUST HAVE NAVY ABLE TO FIGHT THAT OF BRITAIN

New Commandant of New York  
Navy Yard Makes Some  
Startling Statements

New York, Feb. 23.—Speaking at a dinner of the Society of the United States last night, Rear-Admiral H. H. Hines, new commandant of the New York navy yard, declared that if the United States could build a battleship in less than a year, it would be a nation that has not yet been built, and would be the United States to stop.

In determining naval strategy and the size of the navy, he said, naval officers must know against what country they are planning to fight.

"I know," he continued, "that it will make some of you echo my remark. If I say we will have to have a navy large enough to fight with England, it might be said that such talk would be included in that you might say there is no talk in England about such a naval engagement."

Admiral Hines asserted that in England there is open discussion of just what would be needed in the way of a navy in case there is trouble with the United States. He asked why there would not be an open discussion in this country.

"We have to know in the navy," he said, "against whom we build ships. This is necessary so that we can decide on what kind of ships we must build. We can construct different ships against Japan than against England."

MODERATION BILL

Beer May Now Be Allowed for  
Sale in Hotel Dining Rooms  
and Bars

Victoria, B.C., Feb. 23.—(Canadian Press.)—Eleventh hour changes in the draft moderation bill which was finally decided today, should be in the legislature tomorrow afternoon will give effect to demands by the hotel proprietors that beer be served in the dining rooms of hotels.

It was stated that the bill, which was introduced last week, and which, it was intimated tonight, have secured their position.

Since the information was published recently that the bill would be amended to allow the sale of beer in hotel dining rooms, the hotel men have been clamoring for the amendment.

Up to yesterday it was the conviction of members of the government that the hotel men had been asked off, but at the eleventh hour, the information that the bill would be amended to allow the sale of beer in hotel dining rooms, the hotel men have been clamoring for the amendment.

IRISH QUESTION  
CAUSE OF FRICTION  
WITH THE STATES

London, Feb. 23.—(Associated Press.)—A dinner given in the honor of the National Liberal club last night, and which was the first since the election, there would be little pleasure or interest in living in the world if there was war between Britain and the United States.

The fact was made plain to him that there would not be cordiality between the two countries so long as the Irish question remained unsettled.

He referred to the Anglo-American peace treaty requiring the United States to deliver to Britain the arms and munitions which were used in the two great wars, and which would be of great value to the United States.

CATTLE EMBARGO  
INTERJECTED INTO  
ENGLISH ELECTION

London, Feb. 23.—(Canadian Associated Press.)—Mr. Arthur Bowden, the new minister of agriculture, who is fighting an interesting election today, is rather annoyed by the London Daily Express regarding the removal of the embargo on Canadian live cattle, a matter in which the Bowden paper is showing a lively interest.

Mr. Bowden declared that the mitigation of the Daily Express regarding the British cattle were pure nonsense. The mitigation of the Canadian cattle would be a sea life in the situation, he said. The new minister of agriculture would not be deceived by any newspaper. He would not let the election turn on a single point.

The by-election is a straight contest between the minister and the Labor candidate, the anti-war nominee having announced his retirement. The Labor candidate has declared himself in favor of the removal of the embargo on Canadian cattle.

## You'll Choose Your New SPRING SUIT

With An Unusual Degree of Satisfaction  
This Season

There's considerable anticipation directed upon the new season. And it is not so much "What will the new style me?" as "How will the prices be?"

The prices show a decided decline, while the quality of the materials and workmanship are, if anything, superior to the standards of the past few seasons.

As regards style—there is a wonderful diversity, so personal preference will be one's guide. The scope of selection ranges from the plain, simple tailored style to the elaborate embroidered and braided trimmed models.

Treecine, point twill and serge remain the favored fabrics. Navy, blue, brown, taupe, grey and black are the leading shades. Faultlessly tailored with pussy willow silk lining.

Priced \$45.00, \$48.50, \$50.00, \$60.00, \$75.00 and \$115.00
